

HYDROFLUORIC ACID, 70% TECH.

SECTION V HEALTH HAZARD DATA (CONT'D)

EYE CONTACT

Call physician immediately - preferably an ophthalmologist. Flush eyes immediately with large quantities of clean water for at least 15 minutes and hold eye lids apart. Repeat once or twice at 15 minute intervals. To alleviate pain until physician arrives instill 2 drops of 0.5% "Pontocaine" (Winthrop Lab) Hydrochloride Solution into eye. No oils or oily ointments should be used unless directed by doctor.

VAPOR INHALATION

Immediately carry patient to fresh air. Administer oxygen as soon as possible. Call physician. If not breathing give artificial respiration, preferably mouth-to-mouth.

INGESTION

Do Not induce vomiting. Give large quantity of water as soon as possible followed by milk or 2 oz. of milk of magnesia to drink to soothe the burning effect.
